EDUCATION

Dr. Virendra Swarup Institute of Computer Studies (VSICS)

Kanpur, UP

Bachelor of Computer Applications (BCA) — CSJM University

Expected 2027

Academic Performance (Consistent Academic Growth):

Semester 4: **8.41 CGPA (89.6%)** Semester 3: **8.12 CGPA (76.1%)** Semester 2: **8.17 CGPA (81.3%)**
Semester 1: **7.67 CGPA (74.1%)**

Onkar Nath Dhawan Inter College

Kanpur, UP

Class 12th (U.P. Board) — **77.4%**

2024

Class 10th (U.P. Board) — **86.3%**

2022

TECHNICAL SKILLS

Languages: C++, JavaScript, HTML5, CSS3, SQL (Foundational)

Web Development: Frontend Web Development (DOM Manipulation, Responsive Design, Dynamic UI updates), MERN Stack (In Progress)

Core CS Concepts: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOPs), Database Management Systems (DBMS - Familiar)

Tools & Frameworks: Adobe Creative Suite (Photoshop, Illustrator), AI Productivity Tools

PROJECTS

Spotify Music Player Webapp Clone (with tweaks)

HTML5, CSS3, JavaScript (ES6)

- Developed a fully functional music player web application featuring comprehensive client-side audio controls including play/pause, volume modulation, and timeline seeking.
- Implemented custom dynamic content loading logic to scan and automatically render new music albums, tracks, and accompanying thumbnail artwork upon folder inclusion.
- Practiced clean client-side file management, asynchronous data fetching, and real-time DOM updates to deliver a smooth, native application-like user experience.

Mini-Project: Countdown Timer

HTML5, CSS3, JavaScript

- Built an interactive countdown timer designed to handle real-time time tracking and live status updates utilizing JavaScript time intervals.
- Applied robust frontend state management logic to precisely trigger UI styling and behavioral state changes when the timer starts, pauses, or elapses.

Netflix UI Clone

HTML5, CSS3

- Created a high-fidelity frontend clone of the Netflix landing page layout to master fundamental modern UI structural layouts and designs.
- Utilized modern advanced CSS layout systems (Flexbox, CSS Grid) and responsive media queries to guarantee pixel-perfect presentation across mobile, tablet, and desktop viewports.
